- To present a paper, a team has 25 minutes, including Q&A. Please introduce the paper's research questions, model setting, analysis, and major findings to the audience. Please assume that the audience have not read the paper. ***Prepare any converter that you need***. If you need the instructor's help about converter, one letter grade will be taken off as a penalty. ***Be in class in time***. Being late will get one letter grade off as a penalty or get the presentation canceled.
- To review a paper, a team needs to write an ***up-to-four-page*** paper summary. Please ***type*** your report; hand-written reports are not accepted. Please summarize the paper's research questions, model setting, and major findings without using any symbols. A paragraph about the thoughts after reading the paper should then be provided. Submit a hard copy of your summary by ***9:20 AM*** on the date that the paper is presented. Submissions late by one hour get one letter grade off as a penalty. Submissions late by more than one hour are not accepted.

Each of the presentation and summary counts for 10% of the semester grade. Please put efforts on them! The grades of the presentation depend on the understanding of the paper, clearness of the presentation, delivery of main insights, time control, and quality of the slides. The grades of the summary depend on the understanding of the paper, clearness of the presentation, delivery of main insights, and quality of the format.
