Here are some notes:

1. The order will be determined in class.
2. We will have no official break during the lecture time. Each team/individual will be given 25-30 minutes for the presentation, including Q&A.
3. Please do not forget to submit your slides and report electronically to Share Lin by **6:00 pm** of your presentation date. A hard copy of your written report is due in class.
4. We will get all slides ready on the public PC to minimize the switching time. Unless there is really a need, please prepare your slides in PDF or MS Powerpoint format. Please note that your slides are to facilitate your presentation; they should be clear and easy to read. You may give an interesting presentation, but your slides need not to be fancy. If you really need to use your own laptop, please let the instructor and TAs know in advance.
5. Students are expected to listen to other students' presentations.
